

PPD – Project Product Description
PFD – Product Flow Diagram
IS Plan – Initiation Stage Plan

PDs – Product Descriptions
PBS – Product Breakdown Structure
PMT – Project Management Team

CIR – Configuration Item Records
Approach – Project Approach

The PRINCE2:2009 Management Product Map

Objective:

- Create a very simple overview of the Management Products in a PRINCE2® Project
- Use as a training aid for the Foundation and Practitioner courses

This PRINCE2® Management Product Map shows:

- When management products are created in a project (in which process)
- When management products are updated (Logs, Registers, BC, PP)
- Who creates these documents (most are created & updated by the Project Manager)
- The Inputs & Outputs for each process

Theme Information

This diagram shows when the main Theme related documents are created & updated

- **Business Case:** Outline BC, Business Case
- **Risk:** Risk Mgmt Strategy, Risk Register,
- **Quality:** Quality Mgmt Strategy, Quality Register, Product Descriptions
- **Plans:** IS Plan, Project Plan, Stage Plan, Team Plan
- etc...
